Statement Regarding COVID-19

To our valued customers and students:

To start with, we would like to assure you that we are still actively monitoring the situation.

We are following and have implemented the guidelines provided by the World Health Organization and U.S. CDC, as well as any additional guidelines put forth by California and other local health authorities. Based off of these guidelines, we have instituted the following protocols:

For our Students:

- All students will complete a brief Health Questionnaire before the beginning of each lesson.
- All students will have their temperature taken, via infrared, no-touch thermometer before each lesson. Any student showing a reading of 100.4°F or higher will not be allowed to take their lesson and will need to be rescheduled.
- All students will wear a facemask, covering the total area from the bridge of their nose to the tip of their chin, during the entire 2 hours of each driving lesson.
- All students will be required to wear nitrile gloves or clean their hands with hand sanitizer for each lesson.
- Any student who is feeling sick or showing flu-like symptoms will contact our office immediately, so that their lesson(s) may be rescheduled.
- Any student whose lesson is cancelled for health reasons will be rescheduled no sooner than 18 days after their original appointment date and no fever or flu-like symptoms are present.

Students failing to comply with these requirements will be not be allowed to take their driving lesson until compliance is met.

For our Staff:

1. We have increased the frequency of our cleaning procedures of all high touch point areas in our office and in all of our vehicles.
2. We are scheduling lesson times, to ensure that there is extra time in between students to completely disinfect the vehicle.
3. We have directed our instructors to increase the frequency of their hand washing and personal disinfecting.

4. We are requiring our instructors to wear facemasks during lessons. These items will be safely disposed of immediately following each lesson and fresh equipment will be in place, being worn, in time for the next student.

The overall protection of our staff, our instructors and our students has been at the center of what we do for over 26 years. As such, we would like to continue to assure you that we are taking every available precautionary measure to ensure that we are continuing to do so, as we continue to deal with the COVID-19 situation, together.

Sincerely,
A1 Driving School, Inc.
